We Have A Leg Up On The Competition.

The XFX GeForce 8800 Alpha Dog Edition graphics cards offer the performance that gamers have long been waiting for. The 8800 GT features award-winning color clarity with true high-definition video and smooth, stutter-free playback. Output straight to your TV, or go with a multi-monitor experience, this card plays both ways. With a combination of all the right features, it's like the pure bred champion out of a field of mutts.

- PCI Express 2.0
- Unified Architecture
- Lumenex Engine
- 128-bit High Dynamic-Range Rendering
- GIGA Thread: Batch processing / Load Balancing
- Quantum Engine: Embedded Physics features
- DirectX 10 support
- SLI Support
- HDCP Ready
- 112 Stream Processors

GeForce® 8800 GT

ALPHA DOG EDITION

512MB [256bit] GRAPHICS CARD

XFX GeForce® 8800 GT Alpha Dog Edition

Dual Dual-Link Technology

Supporting digital output up to 2560x1600 on two LCD Monitors at the same time.

HDTV Ready and HD Gaming

High-definition video playback and crisp picture quality. Provides world-class TV-out functionality up to 1080i resolution.

SLI Ready

Delivers up to 2x the performance of a single GPU configuration for unparalleled gaming experiences by allowing two graphics cards to run in parallel. The must-have feature for performance PCI-Express graphics, SLI dramatically scales performance on over 60 top PC games.

Dual DVI

Able to drive the industry's largest and highest resolution flat-panel displays.

DVI to Analog Adapter

Includes DVI to Analog Adapter to convert your old VGA output to DVI connector.

HDCP

High-bandwidth Digital Content Protection (HDCP) is a technology to protect digital entertainment content. HDCP has been implemented across both DVI and HDMI interfaces.
